All eligible natural and legal persons (as per item 11 above) or groupings of such persons (consortia) may apply. All members of a consortium (i.e., the leader and all other members) are jointly and severally liable to the contracting authority.

The participation of an ineligible natural or legal person (as per item 11) will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

13. **Number of applications:**

No more than 1 application can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or member of a consortium submitting an application). Selection and award criteria

Same criteria for legal and natural person.

The following selection criteria will be applied to candidates. In the case of applications submitted by a consortium, these selection criteria will be applied to the consortium as a whole:

1) Economic and financial capacity of candidate. In the case of the applicant being a public body equivalent information should be provided:

1. the average annual turnover of the candidate for the years 2007, 2008 and 2009 must be equal to or exceed 150 000 EUR (2007 is considered to be 2 years before last, 2008 is considered to be the year before last and 2009 is considered to be last year);

2. the cash and cash equivalents of the candidate at the end of the years 2007, 2008 and 2009 are positive.

2) Professional capacity of candidate:

1. at least 5 staff currently work for the candidate in fields related to this contract (software development or database development, including the development of database interfaces);

2. at least 20 % of all staff working for the candidate this year in fields related to this contract (software development or database development, including the development of database interfaces) are permanent.

3) Technical capacity of candidate:

2. the project(s) must have been completed in 2007, 2008, 2009 and 2010 (all projects referenced for year 2010 must have been completed before the deadline for submission of applications).

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator.

If more than 8 eligible candidates meet the above selection criteria, the relative strengths and weaknesses of the applications of these candidates must be re-examined to identify the 8 best applications for the tender procedure. The only factors which will be taken into consideration during this re-examination are:

— the total number of projects managed by the candidate according to criterion 3,

— in case of competition between 2 or more candidates having the same number of eligible projects, the candidates will be ranked in descending order according to the total amount of their own contribution to the eligible projects.

22. **Award criteria:**
