  - (b) the cash and cash equivalents of the tenderer at the end of years 2008, 2009 and 2010

are positive

- 2) Technical capacity of tenderer (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract)

(a) the tenderer has successfully completed at least one contract in the field related to this contract (For Lot 1 - Supply of water supply measurement devices and leak detection equipment, for Lot 2 – Supply of sewage measurement equipment, for Lot 3 – Supply of customized inspection vehicle, for Lot 4 - Supply of GIS software, for Lot 5 - Supply of IT equipment and for Lot 6 - Supply of surveying equipment) with the budget of at least that of his financial proposal for this tender in the years 2009, 2010 or 2011.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may *not* be considered appropriate by the Contracting Authority are when the tenderer rely in majority on the capacities of other entities or when they rely on key criteria. If the tenderer rely on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.
