# **SELECTION AND AWARD CRITERIA**

## **16. Selection criteria**

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole:

- 1) Economic and financial capacity of tenderer (based on i.a. item 3 of the Tender Form for a Supply Contract). In case of tenderer being a public body, equivalent information should be provided.
  - (a) the annual turnover of the tenderer for the years 2008, 2009 and 2010<sup>1</sup> must be at least two times the amount of the submitted financial proposal<sup>2</sup>
  - (b) the cash and cash equivalents of the tenderer at the end of years 2008, 2009 and 2010 are positive
- 2) Technical capacity of tenderer (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract)
  - (a) the tenderer has successfully completed at least one contract in the field related to this

---

<sup>1</sup> Year 2008 is considered to be “two years before last year”, year 2009 is considered to be “year before last year” and year 2010 is considered to be “last year”.

<sup>2</sup> If the tenderer applies for more than one lot, the total offered price (meaning, the total sum of offered prices stated in the tenderer’s declaration for all tendered lots) will be evaluated against the set annual turnover.

contract (Supply of crusher for construction waste if the tenderer is applying for Lot 1 supply of wheel loader if the tenderer is applying for Lot 2, supply of waste containers if the tenderer is applying for Lot 3, supply of waste collecting vehicle if the tenderer is applying for Lot 4, supply of landfill compactor if the tenderer is applying for Lot 5, supply of automatic bailing press machine if the tenderer is applying for Lot 6) with the budget of at least that of his financial proposal for this tender in the years 2008, 2009 or 2010

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may *not* be considered appropriate by the Contracting Authority are when the tenderer rely in majority on the capacities of other entities or when they rely on key criteria. If the tenderer rely on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.
