Questions and answers

Equipment for Central Bureau of Statistics (CBS) of the Republic of Croatia

1. Publication reference

EuropeAid/125026/D/SUP/HR

2. Procedure

Open

3. Programme

Phare 2005

4. Financing

Croatia 2005 Phare National Programme

5. Contracting authority

Ministry of Finance of the Republic of Croatia, Central Finance and Contracting Unit

QUESTIONS	ANSWERS
Date: 18 September 2007	Date: 21 September 2007
Lot 1 – Item 1 – Production server 1 1. Can you specify required server performances more particulary: 1.1. Can you specify necessary TPC Benchmark and/or spec.org Benchmark?	1.1. It is difficult to specify since TPC benchmark takes into account predefined servers from various vendors. Therefore, on their webpage, it is possible to find only certain predefined servers, running certain software packages. For this reasons we could not find other corresponding benchmark.
1.2. Can you specify the necessary CPU frequency and the necessary CPU cache memory?	1.2. 1,4 GHz CPU Frequency, 2 MB L3 cache
1.3. Can you specify the number of processors up to which the server should be extended?	1.3. No extension needed
2. Can you specify the amount of memory up to which the server should be extended?	2. The memory (RAM) should be expandable up to 64 GB.
3. Can the required disk space be realised by the using of the storage system, because you request FC HBA?	3. Yes.
4. Can you specify the amount of disk space up to which the server should be extended?	4. No extension needed
5. Can you specify the necessary transfer speed (GB/s) for FC HBA?	5. 2 Gb/s, backward compatible to 1 Gb/s fibre channel products

Lot 1 – Item 2 – Production server 2

1. Can you specify required server performances more particulary:

1.1. Can you specify the necessary CPU frequency and the necessary CPU cache memory?

1.1. 2,66 GHz, 2 MB L2 cache

1.2. Can you specify the number of processors up to which the server should be extended?

1.2. No extension needed

2. Can you specify the amount of memory up to which the server should be extended?

2. The memory (RAM) should be expandable up to 32 GB.

3. Can you specify the amount of disk space up to which the server should be extended?

3. No extension needed

4. Can you specify the necessary transfer speed (GB/s) for FC HBA?

4. 2 Gb/s, backward compatible to 1 Gb/s fibre channel products

Lot 1 – Item 3 – Development server

1. Can you specify required server performances more particulary:

1.1. Can you specify the necessary CPU frequency and the necessary CPU cache memory?

1.1. 2 GHz CPU frequency, 2 MB L2 cache

1.2. Can you specify the number of processors up to which the server should be extended?

1.2. No extension needed

2. Can you specify the amount of memory up to which the server should be extended?

2. The memory (RAM) should be expandable up to 16 GB

3. Can you specify the amount of disk space up to which the server should be extended?

3. No extension needed

4. Can you specify the necessary transfer speed (GB/s) for FC HBA?

4. 2 Gb/s, backward compatible to 1 Gb/s fibre channel products
